

Accelerated Plumbing and/or Gasfitting Pathway

Must have 7 years+ experience in the industry – may need letter from employer to confirm that practical skills are at the level of a registered person.

Have to successfully complete all three stages of distance learning

This programme is expected to take 18 months to 2 years to complete

Complete confined space and fall arrest courses vouchers included

Will need to have completed the appropriate first aid course
(Cost not included in training fees)

There will be a block course once **ALL** distance learning is complete to cover off practical units. If more than one block course is needed there may be an extra cost to the trainee

While in training the renewal of your limited licence is free

You will also need to provide:

Birth certificate or passport copy (verified at the courthouse, by a JP, or one of the ITO regional training advisors)

Evidence from your doctor that you have immunity from hepatitis A and B or have started the shots, and your tetanus immunisations needs to be up to date
